NOTE FROM THE NURSE'S OFFICE

The students are not allowed to keep cough drops in the classroom. However, they can be kept in the nurse's office. They will need to be in the original package they came in with a signed note from the parent giving permission for their child to take them and how often. The directions for administration must be in compliance with the directions on the package. The parent is responsible for bringing them to the nurse's office and picking them up when no longer needed.
